I love SJE... it is such a warm and welcoming place. The students, staff, and parents at SJE have been very welcoming and kind, for this being my first year here. I love the atmosphere of SJE, how it is a great learning environment and happy place to be! I love looking forward to coming to work!

Learning is Fun... This year I decided to bring Recorders to SJE. The third and fourth grade have been so excited about them, it is wonderful seeing their faces light up playing them! The younger grades are doing so very well learning rhythms and songs, and the upper grades are doing very well learning music. The students have been doing amazing with everything I've given them, and I love seeing them learn music is fun!
